

Parent Notification of Kindergarten Health Requirements

Dear Parent/Guardian,

State law requires that any child entering kindergarten must have documented evidence of the following:

1. Immunizations:

- *DTP (Diphtheria, Tetanus, Pertussis) 5 doses*
- *IPV/ OPV (polio) 4 doses*
- *Hepatitis B 3 doses*
- *MMR (measles, mumps rubella) 2 doses*
- *Varicella 2 doses or proof of chicken pox disease.*

2. Physical examination:

- *must be dated within 1 year of the start of school.*
- *Proof of vision screening by a licensed provider.*
- *Proof that lead screening was done.*

Please note that any information missing from your child's health record will result in registration delay for your child. Your child will not be allowed to enter school until all necessary information is received.

If you have an appointment scheduled to meet compliance with the above requirements, notify me of the physician name and scheduled date so that I may contact them for verification. Please contact me for any questions, concerns, or difficulties you may be have obtaining the required information prior to the end of school in June. All information submitted over the summer will be reviewed prior to the start of school.

Thank you for your cooperation,

Linda Allard, RN, RICSNT
