

## **POLICY RELATED TO SUPPORT OPERATIONS**

### **STUDENTS USING TRANSFER BUSES**

The Burrillville School Department is committed to the efficient use of bus transportation, which may include using the same bus to transport both high school and middle school students.

Students boarding a bus at one school shall remain on board the bus unless they are assigned to another bus to which they must transfer. Only students transferring to another bus may disembark their assigned bus while it waits for student dismissal at the other school.

Students who are assigned to a second bus for the trip home shall disembark the first bus and immediately board the assigned bus.

Students shall not be permitted to loiter outside the buses.

Students being transported from school to home shall not leave the bus at the transfer point. Such activity shall result in disciplinary action.
